Every message is end-to-end encrypted. Only you and your recipient can read it.
The Freedom Layer never stores your messages, metadata, or identity.
No emails. No passwords. Your identity is your encryption key, stored safely on your device.
Bypasses firewalls. Smashes censorship. Stays fast everywhere.

Just pushed the latest iOS beta. Let me know if anything crashes horribly.

Chip performance looks solid, but we'll need another pass on thermals. I'll sync with hardware...

Mockups for the new emoji set are ready. Classic and fun. Let me know if one looks too weird.

Tim Cook
Hey Michael!
Hi Tim! Didn't expect to hear from you.
Just wanted to check in and see how you're liking the new iPhone.
It's pretty great, but I think it's starting to read my mind.
Haha, we are working on smarter AI, but not telepathy yet.
Good, because it suggested a salad when I was clearly craving pizza.
That's just our subtle nudge toward healthy choices 😄
